Potential Discussion Questions

- This week is a great opportunity to facilitate discussion about a topic that churches rarely address: missionary care.
- Is there anyone in your group who has been a missionary? Consider asking them to share their story and perspective about missionary care.
- Is there anyone in your group who is an MCT advocate? Consider asking them to share what that's like.
- 3 John is a letter many people have never studied, so it could be easy and interesting to facilitate a discussion about it. Consider turning the outline above into three questions (for example, how do you see missionary care as a joyful sign of health in verses 1-4?). Or you might simply ask, what surprised or challenged you in this passage?
- As a possible application, consider asking each person to share what is one step they want to take in being fellow workers for the truth.
